Introduction

The USA Wrestling Membership System has been updated and now offers its members the chance to manage all their family and team profiles under one account.

The system now has the following workflow that will describe in detail within this document:

- Create an account on the system
- Claim or create profile(s) for you, your family, or teams
- Purchase memberships for your profile(s)
- Charter your club(s) and manage your additional insureds
- Sanction your event(s) and manage your additional insureds

The system maintains historical data from the previous system and once you have claimed your old profiles you will be able to see your past memberships as well as your past payment history.

The USA Wrestling Membership System does this all with an easy-to-use interface that helps you manage every aspect of your memberships.

Creating An Account

Creating an account is the first step to entering the USA Wrestling Membership System. You will be asked to give us some basic details to start your account. USA Wrestling is a COPPA compliant website and as such we cannot allow accounts for anyone under the age of 13, so we ask that parents and coaches create the accounts and claim their child/wrestler's profiles. Once the profile is claimed it cannot be claimed by anyone else until it has been released.

Create your account

Create your Account and begin using the USA Wrestling Membership System.

Once created be sure to take advantage of the following.

- Claim/Create your Profiles
- Join USA Wrestling as an Athlete, Coach, or Official
- Charter your Club
- Sanction your Events

Why do I need an account?

Due to the new system changes and the site being COPPA compliant we now require that all accounts that have access to the website and the profile(s) within the site only be for people above the age of 13. The new system has all your old data held as profile(s) that you will claim or create once you have an account. This is new to the system so creating your account is your first step.

What happened to my data from the old system?

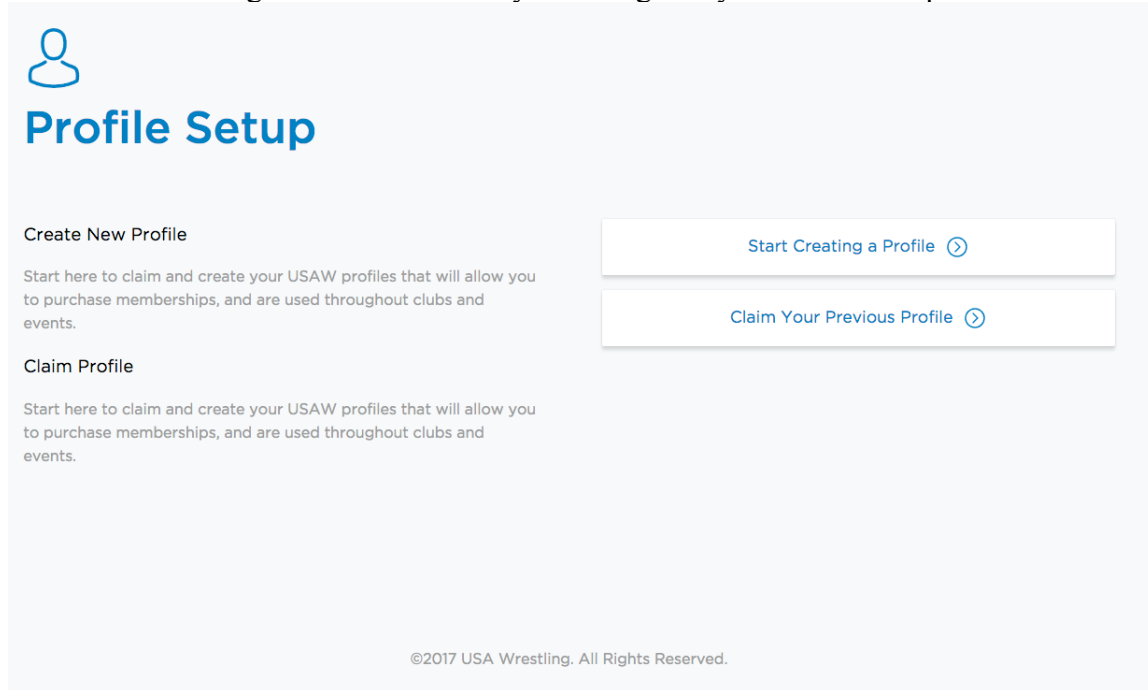

USA Wrestling pulled over your old data as profile(s) and memberships within the new membership system. After you create an account you will be able to “Claim” your old profile using your USAW ID or by searching by your name, state, and birthdate. The new system allows you to claim your whole family so there is only one account needed to manage everything your family does within USA Wrestling.

Why do you need my birthdate for an account?

The Children’s Online Privacy Protection Act (COPPA) was enacted in 1998 by the US Congress. The primary goal of COPPA is to allow parents to have control over what information is collected from their young children online. On July 1, 2013, a new rule concerning COPPA went into effect. The new rule applies to operators of commercial websites directed to children under 13 that collect, use, or disclose personal information from children. Because we do not engage in any such collection use or disclosure, this website is exempt from certain COPPA regulations, including the parental permission requirements. In order to ensure that we are not collecting information from people under the age of 13 we require that all account report to us a birthdate during the account creation.

Profile Management

After creating your account you can now click Profiles in the top menu in order to go to the profiles management screen. Profiles are the backbone of the USA Wrestling Membership System and is where all your personal information is stored in the system. This information is used in purchasing memberships, managing club charters, and event sanctions. You should keep all profile(s) updated frequently as this is the information that USA Wrestling will use to contact you throughout your membership seasons.

The screenshot shows the 'Profile Setup' page. At the top left is a blue outline icon of a person's head and shoulders. Below it, the text 'Profile Setup' is displayed in a large, bold, blue font. Underneath this, there are two main sections. The first section is titled 'Create New Profile' in bold. Below the title is a paragraph: 'Start here to claim and create your USAW profiles that will allow you to purchase memberships, and are used throughout clubs and events.' To the right of this text is a white button with a blue border containing the text 'Start Creating a Profile' followed by a blue right-pointing arrow. The second section is titled 'Claim Profile' in bold. Below the title is a paragraph: 'Start here to claim and create your USAW profiles that will allow you to purchase memberships, and are used throughout clubs and events.' To the right of this text is a white button with a blue border containing the text 'Claim Your Previous Profile' followed by a blue right-pointing arrow. At the bottom center of the page, there is a small copyright notice: '©2017 USA Wrestling. All Rights Reserved.'

Claiming a Profile

Click on “Claim Your Previous Profile” and search for your child or children as well as your personal profile in order to claim it. You can search by entering the first name, last name, state, and date of birth, or you can provide us with your USAW ID.

The screenshot shows a web form titled "Claim Profile" in blue text. Below the title is the heading "Search By Criteria". There are four input fields: "First Name", "Last Name", "State" (a dropdown menu), and "Date of Birth". Below these is an alternative search option labeled "(OR) USAW ID" with a single input field. At the bottom of the form are two buttons: "SEARCH PROFILE" and "CLOSE".

After the search your results will be displayed as shown below and you can click “Claim Profile” to add it to under your account.

The screenshot shows the same "Claim Profile" form, but now it displays search results in a table below the search fields. The table has five columns: "USAW ID", "Name", "Date of Birth", "State", and "Action". A single result is shown for USAW ID 1800025001, Name John Doe, Date of Birth 08/01/1990, and State Colorado. In the "Action" column for this result, there is a blue button labeled "CLAIM PROFILE".

USAW ID	Name	Date of Birth	State	Action

Once claimed under your account it will display in the “My Profiles” table and allow you to start managing your membership(s), club(s), and event(s), under that profile. Any previous clubs and events will now start populating for you.

By affiliating your profiles with clubs, those club administrators have the ability to help manage your profiles and memberships without having to claim them. You can add as many affiliations as you would like. Your primary affiliations will show up as your club listed on your membership.

Search for clubs by name and state, or by the Org ID if you know it. Just like claiming a profile once the search results are returned you can click “Affiliate Club” to add the club to your profile.
